One of the most gratifying items in the above statement, is the increase in the number of visits by citizens.

This record is commendable, but with a little extra effort on the part of parents, this can and should be doubled the coming year. If each parent would visit each term at least once, it could easily be accomplished. Do not wait for a formal invitation from the teacher at the close of the term, but drop in occasionally during the regular work, as the regular work is what counts. If you are not enough interested in your own children to spend one day each term with them, you cannot complain if their teacher sometimes neglects her duty. By giving one day each term, you cannot fail to receive much good by the increase of interest the teacher will take in your children. Much of the work for the past year has been well and painstakingly done. History plainly reveals to us that there has been a steady improvement in education, principles and methods, ever since education had a name. The increasing demands upon teachers require them to move onward and keep in the van. The teacher to be entirely successful must have an especial adaptation, special preparation, and a special love for the work. These qualifications, met by earnest, responsive efforts of pupils and cooperation and sympathy of parents, will result in the ideal school. The best work can not be produced without abundant material and apparatus, which should be supplied by the town, for if they are left for the pupils to supply they are almost invariably tardy and thus retard the desired work. Among the most needed articles are blackboards supplementary reading books and reference books. The fact that our teachers have been retained through the year, shows that they have given general satisfaction, and we would recommend that this custom be followed as practical.

ROLLS OF HONOR.

Report of Library Trustees.

The trustees take pleasure in reporting an increase of interest which is very gratifying to them and to the efficient librarian. Number of cards out, 127, in active circulation 85. The town appropriation has been expended, and the proceeds of an entertainment gotten up for that purpose, with generous money donations from J. H. Lock and Mrs. W. A. Barron, were great helps and duly appreciated. Our generous townsman, Oscar Baron, has presented the library with an excellent selection of fifty new books. May others "go and do likewise," that our little collection of two hundred and forty-two volumes may become one of several hundred, thereby permitting

two distributing days per week, instead of one. The librarian and trustees are glad to see such an interest among the younger people, and the call for a good grade of reading matter of books of travel, history and adventure, of which the supply is not equal to the demand.

Respectfully submitted.
